Heart Cards and resuscitation certifications verification and monitoring

In healthcare, every second counts and can be the difference between life and death. During a medical emergency, having staff trained in leading lifesaving certification programs can be critical for saving lives. Keeping employees' certifications current is not just about maintaining credentials—it's a reflection of the hospital's unwavering commitment to delivering exceptional patient care.

Propelus EverCheck is an essential tool in this effort. It helps hospitals and healthcare organizations verify and manage employees' certifications at scale from reputable certifying agencies like the American Heart Association, the American Red Cross, the Neonatal Resuscitation Program™, and the Resuscitation Quality Improvement Program®. With EverCheck, your organization can have confidence that employees have up-to-date certifications to provide life-saving patient care.

EverCheck verifies the following types of certifications:

American Heart Association

- ACLS Provider
- BLS Provider
- PALs Provider
- Heartsaver® First Aid CPR AED
- Heartsaver® Pediatric First Aid CPR AED
- Heartsaver® CPR AED
- Heartsaver® First Aid
- Pediatric Emergency Assessment, Recognition, and Stabilization (PEARS®)

American Red Cross

- Red Cross ALS
- Red Cross BLS
- Red Cross PAL

Resuscitation Quality Improvement® (RQI) & HeartCode®

- RQI Provider eCredential
- RQI ALS eCredential
- RQI PALs eCredential
- RQI Responder

- RQI ACLS HeartCode® eCard
- RQI BLS HeartCode® eCard
- RQI PALS HeartCode® eCard

American Academy of Pediatrics Neonatal Resuscitation Program (NRP)™

- NRP 8th Edition Instruction Candidate Curriculum eCard
- NRP 8th Edition Advanced (1-11) Provider Curriculum eCard
- NRP 8th Edition Instructor Renewal Curriculum eCard

Managing paper cards

EverCheck automatically verifies eCard numbers from the primary sources listed above. However, if a professional has a paper card, they can submit it via Wallet, a Propelus EverCheck module. From there, the card will be sent to a queue for review on EverCheck's Pending Credentials Report.

Certifications submitted via EverCheck Wallet and approved by your team will be added to the employee's profile and returned to your HRIS system. Customers can also bulk-add AHA or RQI certifications into EverCheck for ongoing verifications.
